Professional Summary

Computer Engineering graduate with hands-on experience in data analysis, dashboard development, and business reporting. Skilled in Python, SQL, Excel, Power BI, Pandas, and data visualization. Seeking an entry-level Data Analyst role.

Technical Skills

Languages: Python, SQL
Data Analysis: Pandas, NumPy, Data Cleaning, EDA
Visualization: Power BI, Excel, Matplotlib, DAX
Database: PostgreSQL, SQLite
Tools: Git, GitHub, VS Code
Basic: Django, REST APIs

Projects

Digital Wellbeing Analy cs Dashboard (Power BI | Excel)

- Developed an interactive dashboard to analyse smartphone usage and digital wellbeing.
- Created KPI cards for Focus Score, Screen Time, Notifications, Phone Unlocks, Stress Level, and High-Risk Users.
- Built interactive charts using DAX, slicers, and visualizations.
- Performed EDA to identify trends across gender, region, education, and device type.

BMI & Health Risk Analytics Dashboard (Power BI | Excel)

- Developed an interactive Power BI dashboard to analyse BMI, body fat, weight, calorie intake, and health risk patterns.
- Created KPI cards for Maximum BMI, Minimum BMI, Average Height, Average Weight, Average Body Fat, and Average Daily Calorie Intake.
- Built interactive visualizations using DAX, slicers, stacked bar charts, pie charts, line charts, treemaps, and Sankey diagrams.
- Performed EDA to identify relationships and trends across gender, BMI class, age, activity level, and health risk level.

Smart Bill Management System (Django + Data Analytics)

- Developed a billing management system using Django and PostgreSQL.
- Analysed billing and customer data using Python (Pandas).
- Designed Power BI dashboards to track revenue, customer activity, and billing performance

Education

Bachelor of Engineering (Computer Engineering), SVBIT, GTU (2026)
Diploma in Computer Engineering, SSP, GTU (2023)

Certifications

- Data Analytics Certification – Adani Skills & Development Center.
- Python/Django/Web Development – Moltech Solutions Pvt. Ltd.

Achievements

- Built interactive Power BI dashboards.
- Performed data cleaning and EDA on real-world datasets.
- Built end-to-end analytics projects using Python, SQL, and Power BI.
